

Nick DiCosola

Vice President – Professional Services Group, Thomson Reuters Regional US

Nick DiCosola has over 15 years of real-time market data experience. He rejoined Thomson-Reuters in 2003 and currently manages and directs all technical account management and engineering in the central US for Thomson-Reuters. Prior to that, he spent 3 years managing and designing the market data infrastructure at Wolverine Trading LLC in Chicago. Nick DiCosola joined Reuters America LLC. in 1993 and has spent his entire career at Reuters designing and integrating market data solutions at many of their largest clients.

Nick DiCosola began his career in 1985 with DAI Technologies Inc. in the Chicago area as a staff engineer designing real-time electronic control system software. He holds 2 joint patents for real time controls algorithms.

Nick DiCosola is an IEEE member and holds a Bachelors Degree in Computer Science from Elmhurst College.
