

Houston Wireless Setup

Note:

Please contact the Tulane staff at the Houston campus to receive the security key. This will be needed for the last step of the connection process. These instructions are for the Windows operating system using the default windows wireless control functionality. If you have proprietary wireless control software on your computer please follow your software's connection instructions.

Windows 7

1. Right click on the network icon in the lower right system tray and select Open Network and Sharing Center.
2. Select Connect to a network.
3. A small window will open listing the wireless networks in view of your machine. Select ABFH and click on connect.
4. Another window will open requesting the security key. Enter the key provided by the Tulane staff then click on OK.

Windows XP

1. Right click on the wireless icon in the lower right system tray and select view wireless networks.
2. A small window will open listing the wireless networks in view of your machine. Select ABFH and click on connect.
3. Another window will open requesting the security key. Enter the key provided by the Tulane staff. You will need to enter it on both lines. Then click on OK.

Mac OS X

The following instructions pertain to Mac OS X 10.4 and later. Please contact the Tulane staff for assistance if your OS version is prior to 10.4

1. Click on your Airport icon at the top right of the screen. If the Airport is off, go to the Airport menu and Turn Airport On.
2. From the list of wireless networks select ABFH.
3. In the security key window enter the key provided by the Tulane staff.

Classroom Printer Setup

These instructions are for the Windows operating system.

1. Click on Start.
2. Click on Control Panel.
3. Click on Printers (Devices and Printers in Windows 7).
4. Click on Add Printer.
5. Choose Add a Local Printer.
6. Select Create a New Port. Scroll down and select Standard TCP/IP port.
7. Enter the IP number for the printer in your room (see list below).
8. Select the appropriate printer driver from the list provided. If a driver is not available see the Tulane staff to arrange assistance in getting the appropriate drivers installed.
9. Enter a printer name of your choosing.
10. Select Do not share this printer.
