

Tulane University Trading Competition  
Phase I - Remote Trading Round  
Results as of 10/16/2009

**Trade Standings**

This trading competition is not only based on profit and loss, but also on each trader's ulcer index. At the end of each day, results and rankings for each team will be posted. These results will include both the unadjusted PnL for each day, as well as the adjusted PnL including the Ulcer Index. Any penalties received that day are already accounted for in the adjusted PnL.

Please note that the values generated from applying the Ulcer Index will be used only for ranking purposes, not determining your credit availability. In addition, the value of the Ulcer Index and the adjusted PnL increases as more data points are included in the results over the two week trading period allotted for this competition. Penalties are as follows:

1. Each team is required to make a minimum of 5 trades per day. The definition of a trade is provided on the website. The team is penalized \$1000 for each trade not executed under this minimum.
2. Trading outside of the instructed hours and/or contracts results in an asymmetric penalty. The penalty is a 15% loss of the outstanding position. If the team has profited from the trade, all profits are voided and the penalty is enacted. If the team has lost on the trade, the penalty is added on to the losses.

For more details on your trading position, description of any penalties or adjustments, please email a request for such information to:
